

To share information in SAP CONNECT as a host or presenter, you need to install the Adobe® Connect™ Add-in. This add-in is publicly available from Adobe® and released for installation on SAP computers by SAP IT.

Steps to Install the Adobe® Connect™ Add-in for Windows OS (3-5 minutes to complete)

1. [Click here](#) to begin the installation.
2. When prompted “Do you want to run or save this file?”; click Run.
3. When prompted “Do you want to run this software?”; click Run.
4. The setup wizard will open; click Next.
5. When the screen titled “Ready To Install” opens; click Install.
6. When the installation is complete; click Finish
7. Restart the meeting (using the back function will not suffice).

For Macintosh OS, [click here](#) to begin the installation.

Visit the [SAP Corporate Portal](#) (Only available within the SAP Network) for more information.
